

## RENTERS INSURANCE

# Protection against life's surprises.

## A renters policy offers affordable peace of mind.

Did you know that when you rent a house or apartment, your landlord's policy doesn't cover you at all? That's why Safeco® Renters insurance is so important. Along with replacing your personal property, it protects you against life's unpleasant surprises.

### Valuable coverage

Your Safeco Renters policy provides plenty of protection.

- Replacement of stolen or damaged personal property without depreciation; whether you're at home or traveling, you can cover your treasured items too.
- Personal liability, so if you accidentally damage a home you rented on vacation or if someone was injured at your home, you may be protected.
- If your home is damaged by a claim and you cannot live there, Safeco would pay for a temporary home while repairs are completed.
- Medical payments coverage provides medical expenses for a guest injured at your home.

### Other valuable coverage

Safeco offers additional, optional coverages to tailor your policy.

- Safeco covers expenses related to identify theft, including lost wages, dependent care, helpline assistance, case management services and more.
- Eligible in-home businesses receive coverage for liability, merchandise and business property.
- If you are sued for damages you have caused or for personal injury, Safeco's renters policy may provide for your legal defense.
- Other valuable coverage, like water backup coverage, loss assessment coverage or even outboard motor coverage.

### Affordable value

A renters policy gives you affordable peace of mind.

A Safeco Renters policy offers an outstanding value. **For just a few dollars per month, you'll receive:**

- The peace of mind that comes from knowing your personal property is covered.
- Protection from lawsuits, injuries and other liability claims that could harm your future income.
- The financial strength and backing of one of the largest insurance carriers in the U.S.
- Plus, Safeco can automatically notify your landlord when you purchase coverage, which is one less thing to think about.
